Mr. Wade's Reports-A Very Rose Colored Documents--- Everything Lovelys--Messrs. Howe and White Not Quite so Unanimous.

NEW YORK, March 22. NEW YORK, March 22.

The Times correspondent with the San Domingo Commission writes from Key West: "Commissioner Wade finished his report Saturday last and submitted it to his brother Commissioners on the following morning. It begins by detailing the work of the Commission, and goes on to describe the political condition of the country. Mr. Wade takes the ground that Baez is de facto President of the Republic and that he is in full and peaceful possession of the government: that tal possession of the government; that Cabral is a mere bandit, living in the mountain districts, where he is sustained by Hayti. The people of San Domingo, Mr. Wade says, are overwhelmingly in favor of annexation. They are described as quiet, orderly and industrious, and all charges of corruption against the United States officers in the negotiation of the treaty of 1869 are branded as villainous ers, without a shadow of foundation The report, which is favorable to anneve tion in every particular, closes with the remark that to embrace this opportunity to plant Republican institutions, and to establish civil liberty and American civilization upon that beautiful and productive island, thus laying the groundwork of a great, free, and prosperous State, would add another to the achievements of our Republic worthy to rank with the great events of our history, and would be equally beneficial to the people of both

Dr. Howe endorses Mr. Wade's report in every essential particular. At the va-rious nectings held the subject has been thoroughly, discussed. Prof. White ob-jects to the closing paragraph of the re-port, but Mr. Wade is firm in his determination that it shall not be stricken out and Dr. Howe fully agrees with him, and

will sign it.

Prof. White is writing some ideas of his own, principally historial, which he wishes to insert in the report, and which, which wishes to insert in the report, and which, and which is the report and which is the winderially alter it. it is insisted, will not materially alter it. The probabilities are that Mr. White will finally agree to the latter clause, and that the report will be unanimous. The re-port, as it stands now, is about four colmns in length.

Mr. Wade Disposed to Push Things-Bacz Wants Another \$100,000.

NEW YORK, March 22. The Tribune's correspondent writes that there has been some carnest and emphatic debate, regarding the report, among the Commissioners, in regard to matters of detail, but the substantial points are agreed to and they look to ansaexation. He adds that there will be nothing in the report which has not been already published, except a full tabular statement of the debt of San Domingo, and all facts on the boundary question. and all facts on the boundary question. Mr. Wade calls Cabral a chicken thief, and says that it was unnecessary to see him; that it makes no difference if he is opposed to annexation. Mr. Howe was layor of delaying the expedition at in layor of delaying the expedition at Port Au Prince until Cabral could be seen. Gen. Baez filed a claim with the Commission for personal indemnity of neraly \$100,000 for the destruction of property, and which he insists must be paid. If annexation occurs, he is willing to accept the old treaty. The Commissioners will visit Washington as soon as they return. The expenses of the expedition thus far is about \$10,000, exclusive of ship and expenses. of ship and expenses.

during the progress of the war, leaving a debt yet unprovided for of about one hundred and thirty inillions of dollars. By other pressing debts if Paris and elsewhere, the floating obligations will be swelled to not less than two hundred millions of dollars. This sum will have to be raised at once, and when is added to it the first instalment of the Prussian indemnity, an aggregate of pressing and immediate liability of three hundred millions of dollars will be reached, and if it be decided, as would seem to be wise policy, to pay the remaining instalments of the indemnity, so as to at once get rid of the German army of occupation and set the industries of France free from the destroying and wasteful presence of an invading host, the aggregate will be raised to one thousand two hundred millions of dollars, or nearly two thirds of the dollars, or nearly two thirds of the amount of all the loans we raised during and since the rebellion. M. Thiers' gov stranger promises considerable financial vitality, and seems to have mastered the situation with much ability. All French wars have caused, as a distinguishing feature of the habits of the people, a great hoarding of coin, and there must, therefore, be a large amount of coin now secure in hiding places, as seven months since no country in the world had as large a per capita circulation in coin as France. These hoards will now come out to resuscitate her industries. The vitality, and seems to have may

Cincinnati Market. AT LIBERTY ONCE MORE. -- In Tuesday

CINCINNATI, March 22, morning's paper we chronicled the fact of Corron-Steady; middling uplands Tobe Vance's incarceration in the Martin's Ferry lock-up. That day had not ended before Tobe walked the earth, a freeman once more. Tuesday evening little liberty was granted him, when he took the responsibility of enlarging it in-definitely by making good his escape. Tobe evidently don't like their way of conducting such matters over in Martin's

ralid ones, at least to his own mind.

Yesterday morning we saw this liberty
